

2014 Lecture Series

Ocean Plankton: The Life and Times of Tiny Marine Organisms

January 10th 7-8:30 pm

Northwest Educational Service District Building
1601 R Ave, Anacortes

Jude Apple, Ph. D., Marine Scientist
Western Washington University
Shannon Point Marine Center

Marine plankton are among the most abundant and vital organisms on earth and yet most people know very little about them.

Join Dr. Jude Apple to hear what life is like in the planktonic realm. Learn of their bizarre shapes and sizes, ways they communicate and the survival challenges these organisms face. You will also learn how humans and even our entire planet are shaped by the presence of these organisms in our oceans and coastal waters.

Lectures are free and open to the public.

Sponsored by Friends of Skagit Beaches
